## Accident Toll

(Continued from Page 1)

on into the heavy bus. The car was almost completely demolished by the impact.

The bus, fully loaded with passengers, went into the ditch following the collision and slowly toppled over on its side as it came to a stop on the incline. None of its occupants suffered injuries aside from minor bruises.

Mrs. Logan was transferred to the Misericordia hospital Sunday by Smith's ambulance and hospital authorities reported Monday that her condition was "good."

**THE DEAD MAN**, who was born at Holden, is a graduate of MacKay avenue and Garneau public schools and the Technical high school. He served overseas with the RCAF for two years and completed a tour of operations as a navigator. He was discharged with the rank of pilot officer in May, 1945, and had been employed by Western Transfer and Storage Ltd.

Besides his wife, he is survived by his mother, Mrs. J. E. Logan; one sister, Ellen; two brothers, Arnold and Ernest Logan, all of Edmonton. Funeral arrangements, which are in charge of Foster and McGarvey Ltd., will be announced later.

A six-year-old girl, Marjorie Highecock, daughter of Mr. and Mrs. R. Highecock, 1215 125 street, and Pte. Palm Schauer, of the C.W.A.C., had miraculous escapes from death during the week-end. The Highecock girl was knocked over by a south-bound Calder street car on 124 street near 116 avenue Saturday afternoon while Pte. Schauer was hit on the head by whirling propellers at the airport Sunday afternoon. Both escaped without serious injury.

The street girl, who was returning from a theatre, got off a north-bound street car on 124 street about 5:05 p.m. Saturday when the accident occurred. She was accompanied by three friends.

According to Mrs. Highecock, three of the children crossed the street safely, but her daughter became frightened by an approaching truck and ran directly in front of a south-bound Calder car. She was thrown to the ground between the rails and pinned beneath the street car.

The street car had to be jacked up before the child could be removed and rushed to the Royal Alexandra hospital by St. Joseph's ambulance. It was thought to be suffering from a fractured skull, but X-rays showed no fracture. She suffered extensive abrasions and bruises. Hospital authorities said that Marjorie was doing "very well."

**MISS SCHAUER**, who was struck by the propeller of an aircraft at the city airport about 4 p.m. Sunday, was taken to the Royal Alexandra hospital by Smith's ambulance and later removed to the University hospital, where she is reported to be "doing nicely." She suffered extensive lacerations to the face and shock.

Miss Schauer, who was in the city in a day discharge leave, went to the airport Sunday afternoon for an airplane ride. She was taken up by Ritchie, pilot for Western Airlines, and was injured while descending from the plane.

It was stated that the young woman stepped out of the plane, moved around the wingtip and then back into the plane, where she was struck by the whirling propeller.

Another dangerous driving incident occurred Sunday afternoon when a south-bound Calder car struck Cecil Adair Morin, 124 street and 116 avenue, following an accident between 120 street and 124 street on Sunday about 2:30 p.m. Sunday, three persons in the car were released on \$500 bail and scheduled to appear in city court Monday.

The car was driven by E. A. Bradley, 4111 Glenora street. Both drivers moved with minor injuries, but the car was damaged.

Miss POGGIE, a passenger in the car, was injured, but not seriously. She was taken to the hospital for treatment of minor facial cuts and bruises to the top of her head. She admitted to driving about 30 p.m. Sunday, almost 15 minutes after the accident had occurred.

**Evacuation of Iraqi**

**TEHRAN, April 1.**—A United Nations spokesman said today reports from Iraq indicated that the Russian army making "extraterritorial" moves to evacuate the city of Baghdad, and that the province of Azerbaijan, which has no actual movements, troops or arms, had been evacuated. The spokesman said that the evacuation of the city of Baghdad and the province of Azerbaijan was being completed, and that the evacuation of the city of Baghdad was being completed.

**East Blaze Now Under Control**

**MULL, Que., April 1.**—(CP)—Firemen last night declared the fire which attacked the interprovincial bridge and raged for 36 hours in the adjacent locality of the E. R. Eddy Company was completely under control. Smoke still rose from the remains of the pulpwood pile, mostly sheathed in a four-inch coating of ice but still a mass of glowing coals at the centre. Firemen, who poured more than 7,000 gallons of water on the blaze since its outbreak Friday night, said the colder weather had assisted in controlling the flames which raged throughout Saturday.

## Planes of "Warrior's" Air Squadrons

—RCN Photo

Canada's new aircraft carrier, the 18,000-ton HMCS "Warrior," carries two air squadrons equipped with the latest in modern carrier aircraft. Planes of "803 Squadron" are Seaforce fighters, the sea-going version of the famous Spitfire. Equipment of "825 Squadron" consists of long-range two-seater Firefly fighter-reconnaissance planes. Both are heavily armed with cannon and are capable of carrying out both strafing and bombing attacks. The top picture is of the "Firefly," while the "Seaforce" fighter plane is shown below.

## HMCS Warrior Arrives at Home Port

## Canada's First Carrier Docks at Halifax

**HALIFAX, April 1.**—(CP)—HMCS Warrior, first aircraft carrier to wear Canada's green Maple Leaf on her funnel, steamed into her home port Sunday a week out of Portsmouth, England, on her maiden voyage.

Just inside Sambro lights at the approaches to Halifax, the 18,000-ton flat-top turned into the wind and few off her fighter and reconnaissance aircraft, giving Canadians a shore their first chance of seeing Canadian naval aircraft in action.

Escorted by the destroyer Middleton and the Albatross, the carrier was a recognition of the fact that the ship was a member of parliament for Halifax.

At Halifax expressed pride in his ship and the fact had been able to bring her into Halifax, "the place where my wife came from." Standing under the ship's emblem—a Viking's head with the motto "Hail to the victors of the sea"—the ship's company her steaming and value of co-operation between flying trials had been completed and air power," Mr. Macdon, successfully.

**Soviet Determined To Remain in UNO**

**MOSCOW, April 1.**—(AP)—Russia's emphatic intention to remain a working partner in the United Nations with no thought of withdrawal, was declared today by a spokesman in Moscow.

**TWO FOREIGN** representatives in responsible diplomatic posts said today they had received strong, though unofficial, assurances within the last few days.

The Soviet Union is paying great attention to the UNO, declared the well-known lecturer on world affairs, Alexander Leontiev, in an address at the Hall of Columns in Moscow. He said it is a serious instrument of preserving international peace and security.

"It is natural," Leontiev continued, "that differences in opinion are going to emerge on a number of questions. There will be contradictions between the great powers, but the problem is to surmount these hardships and to find a joint basis for decisions on international affairs."

**LEONTIEV DECLARED**, however, that a war of nerves is being directed against the USSR, that the foreign press is developing an anti-Soviet campaign, that there are propaganda abroad who are agitating for a new war. He said that an "imperialist trend" in developing in world politics, and that certain quarters in the United States still are trying to employ "atomic diplomacy" to bend the world to American will.

But, he said, "The Soviet Union is looking at a tremendous obstacle in the way of the instigation of a new war."

Leaving no doubt that he included Britain and the United States in a group he pictures as seeking to impose its will on others, Leontiev said, "The war was hardly over when the reactionary American press came out with life talk that domination of world affairs in all corners of the hemisphere should belong to America, that she should 'consolidate' the leadership all over the world."

**COMMENTING** that Britain was willing to play a role of junior partner with the United States, Leontiev said, "However, this idea of domination of the world by the Anglo-Saxon race does not suit the interests of the people of the world at large."

**East Blaze Now Under Control**

**MULL, Que., April 1.**—(CP)—Firemen last night declared the fire which attacked the interprovincial bridge and raged for 36 hours in the adjacent locality of the E. R. Eddy Company was completely under control. Smoke still rose from the remains of the pulpwood pile, mostly sheathed in a four-inch coating of ice but still a mass of glowing coals at the centre. Firemen, who poured more than 7,000 gallons of water on the blaze since its outbreak Friday night, said the colder weather had assisted in controlling the flames which raged throughout Saturday.

## Directed Dallas, Texas Team

## LeRoy Goldsworthy Returns To City from Hockey Wars

Disappointed that he had been unable to witness any of the junior hockey playoffs in Edmonton, LeRoy Goldsworthy, former NHL and minor league player and coach, arrived in Edmonton Monday morning.

**HE WILL SPEND** two months here after leaving on Monday for Dallas, Texas, entry in the United States professional hockey league. During the summer he will be professional at the Jasper Park Lodge golf course and will be in St. Catharines, Ont., in September, where his American team will get into shape for the next season's ice activities.

Hockey popularity is sweeping the south and new and larger arenas are being planned for several of the cities in the U.S. League, former Edmonton hockey and baseball star said.

**"WE HAVE BEEN** turning away fans nearly every game and as the rink in Dallas has a capacity of only 3,000, consideration is being given to building a larger arena. "In our last game of the season, which meant nothing to either team, we beat Kansas City 5-2, but you would have thought from the enthusiasm of the fans that we had just won the Stanley cup."

Russ Kopak, a former Edmonton junior star, won the most valuable player award, playing with Kansas City.

**GOLDIE EXPRESSED** disappointment over not seeing Saturday's junior struggle at the Arena here.

"I am interested in securing promising players for the Dallas club as we had a young team this season, but we are building for next season," he said.

## Returns to City

LEROY GOLDSWORTHY

Goldsworthy starred here as a hockey player and was for several seasons with various National and Canadian-American League teams. He was also a fine baseball player, having performed in professional company for several seasons.

## 2 Earth Tremors Centre in Alaska

## Coal Strike

(Continued from Page 1)

ready for a holiday anyway—their annual celebration of April 1 in honor of John Mitchell, one of the union's earliest presidents, and to commemorate the 8th anniversary of the effects of the strike therefore will not be felt until tomorrow.

**PRESIDENT LEWIS'** principal demand from the coal industry is the establishment of a health and welfare fund for miners, to be created from an assessment on each ton of coal produced and to be administered by the union. The National Coal Association said such a "voluntary" payment would make Lewis a dictator more powerful than any America has ever known.

Lewis refused to discuss other major issues of wages and hours until the welfare fund question is settled.

Hope was held out that the stoppage would be brief. Operators and union representatives remained in Washington to continue negotiations.

**PRINCIPALLY** affected are the few coal-producing states of Pennsylvania and West Virginia, employing one-half of the soft coal miners.

The government took over control of shipment and distribution of soft coal under orders of the solid fuels administration. Retailers were directed to distribute supplies only to such consumers as gas companies and electric utilities, having less than 10 days' supply, and industrial concerns with less than five days' supply.

University telegram today, Nev. Joseph J. Lynch reported. The seismologist said the first tremor occurred at 6:38 a.m. CST and the second at 6:45. The distance was about 2,500 miles northwest of New York.

## FIELD MARSHAL GORT

## Lord Gort Dies

## Following Illness

**LONDON, April 1.**—(CP)—Field Marshal Viscount Gort, who commanded the British Expeditionary Force in France during the Second Great War, died Sunday of a long illness.

**A FORMER CHIEF** of the British Imperial staff and a first cousin of the King, Lord Gort was designated as commander-in-chief of the British Expeditionary Force in France during the Second Great War, died Sunday of a long illness.

Born July 10, 1886, he succeeded his father as the sixth Viscount Gort in the Irish peerage, was aged 59.

A descendant of a long line of warriors, Lord Gort was a professional soldier since he was 15. His energy and reputation for courage won him the army's "The Tiger."

**HE SERVED** with distinction during the First Great War, winning the Victoria Cross, the Empire's highest gallantry award, in 1918, after he was twice wounded. He was a breast-warrior when the war ended in 1918.

In 1927, when Leslie Hore-Belsham then was secretary, was asked about for a leader to reshape Britain's armed forces to meet modern requirements, Lord Gort was promoted over the heads of some 30 senior generals to the army's highest post, that of commander-in-chief of the British Expeditionary Force.

**THE FIRST MEETING** between Viscount Gort and Mr. Hore-Belsham was unconvincing. Both were holiday in Switzerland. They collided while skiing.

## Announce Signing Turkey-Iran Pact

**ANKARA, Turkey, April 1.**—(AP)—An official announcement confirmed yesterday the signing of a friendship treaty by Turkey and Iraq. The statement said the treaty was an "instrument of peace" and would become effective as soon as it was ratified by parliaments of both countries.

## Mechanic Gets Broken Arm

## Thirty-Two-Year-Old Automobile

## Still Has Lots of Kick in Motor

**ATCHISON, Kas., April 1.**—(AP)—Thirty-two years ago Mr. and Mrs. Robert Schmeigel bought a new Rm automobile. They drove it only 643 miles, then refused to use it again after it had frightened a team of horses.

A garage was built around the car. A young sapling sprouted in front of the garage doors. The Schmeigels died.

**THE CAR SOLD** at auction for \$20 Saturday. Workmen had to saw down a tree 16 inches in diameter to get the car out of the garage. Mechanic Robert Morris primed the engine with gasoline and gave the crank a turn. The engine started, the crank kicked.

Morris suffered a broken arm.

**GETTING UP STEAM . . .**

Few people realize how great is the number of small industries which go to make up industrial totals.

In Canada's iron and steel industry, for example, 168 plants out of a total of 1,931 plants in the industry, employ 31,848 Canadians making "miscellaneous" iron and steel products. The average plant manufacturing "miscellaneous" products, employs approximately 200 people. Yet most of us are in the habit of thinking of iron and steel in terms of huge industrial plants employing thousands.

These small businesses demand capable management that is alert to the opportunity of anticipating the needs of the Canadian people. For example, 77 small plants are literally "getting up steam" to make the latest types of heating and cooking apparatus.

Yes, little industries . . . planning for the future . . . doing an infinite number of essential jobs . . . are indeed the backbone of our national industries. And today—after more than 90 years—the Bank of Toronto is helping small businesses bring to fruition their constructive plans. We cordially invite you to help in your own plans and credit needs.

**GETTING UP STEAM . . .**

Few people realize how great is the number of small industries which go to make up industrial totals.

In Canada's iron and steel industry, for example, 168 plants out of a total of 1,931 plants in the industry, employ 31,848 Canadians making "miscellaneous" iron and steel products. The average plant manufacturing "miscellaneous" products, employs approximately 200 people. Yet most of us are in the habit of thinking of iron and steel in terms of huge industrial plants employing thousands.

These small businesses demand capable management that is alert to the opportunity of anticipating the needs of the Canadian people. For example, 77 small plants are literally "getting up steam" to make the latest types of heating and cooking apparatus.

Yes, little industries . . . planning for the future . . . doing an infinite number of essential jobs . . . are indeed the backbone of our national industries. And today—after more than 90 years—the Bank of Toronto is helping small businesses bring to fruition their constructive plans. We cordially invite you to help in your own plans and credit needs.

## Mulberry Showing Highly Successful

With an attendance of 35,000 the Mulberry exhibition closed to Edmontonians on Saturday at 10 o'clock after a successful seven-day showing at the Prince of Wales arena.

Edmonton was the eighth city to play host to this exhibition of engineering genius and to date nearly three quarters of a million Canadians have viewed the large scale models and the motion picture, "A Harbor Goes to France," from Edmonton, the exhibition moves to Vancouver and Victoria, before starting its long trek back across the country to Quebec City, Halifax and Saint John.

**SAPPERS OF THE Royal Engineers** who accompany the exhibit are already at work, disassembling the models and placing them in cases, especially constructed to carry them in freight cars across Canada. Lt-Col. Glover, officer in charge of the exhibition has left for Vancouver to complete final arrangements for the Vancouver showing and Col. V. C. Siewer, chief of the Mulberry division leaves Edmonton for that city on Wednesday.

In Vancouver, the exhibition goes on display at the Hudson's Bay Company store, starting Saturday April 13th and will remain there for approximately two weeks. The exhibit is being sponsored in Canada by Hudson's Bay Company in collaboration with the Engineering Institute of Canada.

## Sailor Is Drowned As Boat Capsizes

**PORT ALBERT, B.C., April 1.—(CP)—**One man was drowned and another is missing following capsizing of a small boat at Long Beach, 40 miles west of here, the west coast of Vancouver Island, yesterday.

British Columbia police at Port Alberni said they had been advised that the men were on a party of five that had gone aboard a Royal Canadian Navy tender to explore a mine that drifted ashore last week.

**AFTER COMPLETING** the job, the men were returning to the tender when their boat was caught in the surf and capsized. The three rescued men wallowed in the ocean for more than an hour before being rescued.

Police Constable George Redhead of Ucluelet, B.C., said the body of a Canadian sailor had been recovered, but that a civilian who assisted in the disposal of the mine, was missing.

Names of those rescued and the missing man were not known and identity of the sailor was being withheld pending notification of next-of-kin.

## Vancouver Runs Out Of Smallpox Serum

**VANCOUVER, April 1.—(CP)—**Vancouver's supply of smallpox serum was exhausted at noon Saturday, Dr. Stewart Murray, medical health officer, announced. The announcement was made after several thousand persons had been vaccinated in six health clinics following the outbreak of epidemic in Seattle, Washington.

Dr. Murray said supplies had been ordered from eastern Canada and that these are now en route by air.

**THE BORDER** between British Columbia and Washington state remains open, and United States health authorities have promised to notify Canadian authorities immediately should any smallpox be found in northern Washington.

**VICTORIA, B.C., April 1.—(CP)—**To prevent importation of any smallpox, all passengers coming from Seattle to Victoria or Vancouver will be required, effective Monday, to produce certificates of vaccination or vaccination within one year, Dr. B. B. Jenkins, medical superintendent of the Dominion quarantine station, said Saturday.

## Protest Existence Of Italian Fleet

**PARIS, April 1.—(Reuters)—**The Paris Conservative newspaper *Figaro* protested yesterday against the continued existence of the Italian fleet and demanded that Italy, "which under German protection seized many French ships immediately 'give us back an equivalent tonnage'."

**Holding Letter**  
The Red Cross, 608 Tegner Building, Edmonton, is holding a letter for: Mrs. Hans Bohn, whose address is given as Edmonton.

## Eleven Divorces Are Granted Here

Eleven decrees absolute of divorce were granted in supreme court Monday by Mr. Justice Hugh John Macdonald. The decrees were granted to: Lorna W. Ambley from James A. Ambley; Stephen Paulik from Sophie Paulik; George F. Wright from Annie M. Wright; Doreen Blockinger from Victor R. Blockinger; Grace F. Trivett from Verne W. Trivett; Vyrah Smith from Edward B. Smith; Harry F. Major from Emily A. Major; Susanna Mercier from Romeo Mercier; John Fleck from Joyce P. Fleck; Peter V. Eastwood from Mary A. Eastwood; and William Laszko from Pauline Laszko.

## Welcome Home Given Veterans

A welcome home was extended to the veterans of the Vancouver district at a party held in the community hall on Saturday night. More than 200 persons attended the affair which was sponsored by the Cloverdale service club, an organization which kept the boys of the district well supplied with cigarettes and parcels during the war years. The club's mailing list contained about 300 names.

**GUEST SPEAKER** for the evening was W. A. Williams, M.L.A., secretary manager of the Canadian Legion branch in Edmonton. The roll of honor for the community league unveiled by G. F. Hunter, former principal of Bennett school, was a past-president of the community league.

The welcome home was extended to the veterans by Mrs. T. J. Coyle, president of the service club. Mrs. Coyle also gave greetings to the district and expressed the desire to see them soon become active members of the community league. W. S. Baldwin, wife of the community league president, then presented Mrs. Coyle with a bouquet of roses.

**THE REPLY** from the navy veterans was given by Robert McFarland, Ronnie Hancock gave thanks on behalf of the army personnel and James Murdoch spoke for the air force veterans. The three speakers also gave thanks from the women's branches of their services, of which eight women of the district were members.

Chairman for the evening was the community league president, W. S. Baldwin. Mrs. Grace Fox was in charge of arrangements for the affair. Community singing was led by Jack Jones, accompanied at the piano by Mrs. Ronnie Hancock. A. J. Gibbon, 73, one of the original homesteaders of Gilroy, Sask.

## Edmonton Philharmonic Society Ends Second Season's Concerts

With its best all-around performance of the season the Edmonton Philharmonic Society gave its fifth and final concert of its second year before the public, at the Empire theatre on Sunday afternoon. The audience, which filled the theatre was enthusiastic and gave ample evidence of its appreciation of the good work accomplished.

**THE ORCHESTRA** was faced with a difficult task. Topped by Beethoven's Fifth Symphony and including Mozart and Hossini overtures, and an offering in modern orchestral dress, the program was pitted with difficulties. These were faced courageously, if not always successfully.

One could point to spots where there was lack of balance, questionable intonation and a failure to keep the musical fabric closely knit. But on the whole the concert was well done and showed evidences of care and diligence.

**THE WHOLE** left a favorable impression and there is no doubt that when next season rolls around a large number of old and new patrons will be willing to greet the players.

The concert got off to a good start with Mozart's "Serenade" overture, which was played with the lightness of touch required, and with considerable finesse and delicacy. The Beethoven work presented the greatest number of obstacles, in intonation, ensemble playing and cohesion. The "Schwanda" polka lacked just the light, airy, sprightly treatment that Weinberger calls for in his score.

**ROSSINI'S "LA GAZZA LADRA"** overture on occasion was not as well-knit in performance as it might have been. Strauss' "Pizzicato Polka" and the Intermezzo from "Cavalleria Rusticana" were excellently played.

Abe Frakin conducted. He fully justified the ovations given him on the various appearances on the program. Obviously he had not stinted in effort and time to place the performance on as high a plane as possible. His leadership was fully appreciated by the players who responded willingly and quickly to his desires in dynamics and nuance.

**MOREEN BRISTOW, soprano.**

## Deactivate Yank Troops in China

**SHANGHAI, April 1.—(AP)—**Deactivation of the United States Army in the China theatre May 1 was announced today by Lt.-Gen. Albert C. Wedemeyer, commander of the joint chiefs of staff in Washington.

This will leave 3,000 to 4,000 United States Army personnel in China to carry on with the military advisory group headed by Gen. George C. Marshall and to serve on the cease fire truce teams and aid with repatriation and similar duties.

**GEN. WEDEMEYER** told correspondents at a press conference that the army strength in China, 65,000 at its peak, would be reduced to 2,000 to 4,000 men.

The 45,000 marines in North China will revert from Gen. Wedemeyer's control to the navy, he said. He did not indicate when the marines would leave China.

United States army units, sent to China at the outbreak of the Japanese war, remaining there throughout.

## Wife Kills Husband In Winnipeg Brawl

**WINNIPEG, April 1.—(CP)—**A family argument ended in death for 45-year-old Henry N. Knight Saturday night when a knife was plunged into his heart during a struggle with his wife.

**A FIGHT STARTED** in the kitchen about 10 p.m. after Knight came home intoxicated, police said. A struggle took place in the kitchen and the hallway, during which Mrs. Knight seized a knife used as a door key.

In the fight for possession, Knight was stabbed in the heart. He staggered into the kitchen, gasped, "She stabbed me. I'm done for," and collapsed on the floor where he died.

Witnesses at the fatal quarrel were Allan, 12, a daughter, Viola, 10, and a roomer George Collins, 40, who was in the house at the time and two other children were out.

Mrs. Knight was being held without charge Sunday and an inquest was scheduled for Monday.

## Elect Officers Of Science Assn.

The Science Association at the University of Alberta last week elected the executive for the 1946-47 term. The general committee officers will be W. Hughes president, J. H. Whyte, secretary, S. G. Davis, treasurer, and M. J. Huston representative of the 1946-46 executive. These officers represent the following faculties: Zoology, Botany, Chemistry and Pharmacy, respectively.

**CHAIRMAN OF SECTION A** will be G. O. Langstroth of the Physics department, and secretary will be J. Gregory of Industrial Research.

Chairman of Section B will be W. C. Broadfoot of the Dominion Laboratory of Plant Pathology.

## Caution Is Order of Day Beware, It's April 1st

Despite going about their business with an air of caution Monday, many an Edmontonian was thinking dark thoughts about the origin of the "April fool" gag. Students in various city schools, public, intermediate and high, probably had the biggest April Fool's casualty rate, although office workers and businessmen were not overlooking opportunities to "pull a fast one" on some unwary fellow man.

According to custom, the "fool" part of April 1 ends at noon. Irrepressible spirits in the past however have seen to it that the idea of making friends look foolish, lasts at least until midnight. Note to people whose birthdays fall on April 1: Don't forget that many great men had the same inauguration—don't let it get you down!

and secretary will be J. A. Romeny of Bacteriology and Hygiene. D. Smith, of Philosophy and Psychology, will act as chairman of Section C, and K. Acton of the Dominion Agricultural Experiment Station will be the secretary.

Members of the nomination committee were chairman, A. W.

## Imperial Veterans Will Retain Name

**GUELPH, Ont., April 1.—(CP)—**More than 200 Imperial veterans from eastern and western Canada yesterday registered opposition to a proposal that the name of the Imperial's section of the Canadian Legion be changed to "British Canadian Legion" section. The proposal is to be submitted to the Dominion convention in the Legion in Quebec in May.

## Expects No War For Thirty Years

**PRAGUE, April 1.—(AP)—**President Eduard Benes said Saturday there would be no major war for the next 30 or 40 years because every leading power realized that a modern war would end in social revolution, which would bring on an unpredictable chain of events.

**Canadian Nickel**

**brings Tea to your Table**

Canada produces no tea; India produces no Nickel. So Canada imports tea from India; India imports Canadian Nickel and articles containing Canadian Nickel.

Less than three per cent of the Nickel produced in Canada is consumed in Canada. The rest is exported, and the money received helps to pay for tea and other products necessary to good living in Canada. Canada cannot keep on importing from other lands unless Canadian goods are exported.

Also, we must continue to export Canadian Nickel if we are to continue to employ thousands of Canadians in the Nickel mines, smelters and refineries, and other thousands who produce the lumber, power, steel, machinery and supplies used by the Canadian Nickel industry.

By constantly expanding the use of Nickel at home and abroad, the Canadian Nickel industry brings additional benefits to Canada and Canadians.

## Road Ahead

drag the country out of the morass of uncertainty into which it is settling our political parties are more interested in discrediting the efforts of their rivals than they are in improving the state of the nation. Instead of helping those who are in power to govern wisely

those who are out of power hope and pray that the parties in power will fail miserably, so that the people will turn them out—and pin their hopes on those who helped them to stumble and fall.

**CANADA CAN BE GREAT.** Canada can be free, Canada can be increasingly prosperous. Can-

And Canadian democracy can be made a model for other nations to envy. But Canada can't be any of these things, and Canadians can't have any of these things, unless we are willing to put our selfish desires and ambitions aside and work together for the common good of all.

Those who say that the interests

And Canadian democracy can be made a model for other nations to envy. But Canada can't be any of these things, and Canadians can't have any of these things, unless we are willing to put our selfish desires and ambitions aside and work together for the common good of all.

Those who say that the interests

of Quebec are different from those of Ontario, that the interests of Protestants are different from the interests of Catholics, that the interests of the Maritimes are different from the interests of British Columbia, that the interests of the east are different from the interests of the west, that the interests of labor are different from the in-

interests of capital, that the interests of employers are different from the interests of employees, are either liars or fools. And those who go about this country sowing the seeds of mistrust and hate, fanning up hatreds of various kinds—those who do these things are seeking only to deceive the people, to divide them in order to conquer them—those who do these things are the
